What Will Be Covered

- In this webinar, we will demonstrate how to use the ThinkCar diagnostic scan tool to approach vehicle diagnostics in an efficient, logical, and professional manner.
- Rather than simply retrieving diagnostic trouble codes (DTCs), we will demonstrate a structured diagnostic process that begins with Generic OBD II and then progresses to the Enhanced/OE side of the scan tool when additional information or testing is required.

4

What Will Be Covered

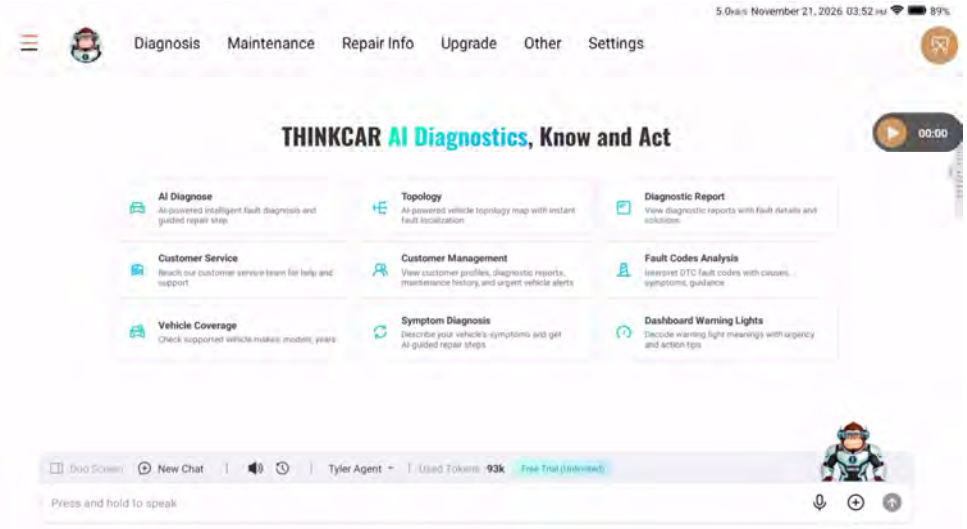

- **During the webinar, we will demonstrate:**

- **Using Generic OBD-II to establish an initial understanding of the vehicle's condition.**
- **Accessing Enhanced/OE diagnostic information and vehicle-specific systems.**
- **Retrieving and interpreting diagnostic trouble codes.**
- **Using PID/live data to evaluate system operation and identify abnormal readings.**
- **Performing bi-directional controls and active tests to verify component operation.**
- **Using ECU coding and programming-related functions, when available.**
- **Performing maintenance and service resets.**
- **Applying scan-tool information as part of a complete diagnostic process rather than relying solely on DTCs.**
- **Using Tyler the ThinkCar AI**
